PROFILE

PARENTHOOD A proud and active father of four;

PATIENCE High level of endurance when faced with setbacks and when dealing with a team;

Capable of assuring that objectives/deadlines are met while maintaining team's morale; **LEADERSHIP**

Capable of an high level of abstraction and thinking outside-of-the-box; ABSTRACTION Able to decide when to be persistent and when to change directions; **DECISION**

JUSTICE High sense of social, personal and professional justice;

Looking to new technologies and academic advances, bridging this with real necessities; VANGUARD

Punctual, organized, always positive and available; ORGANIZED

EXPERIENCES (latest on top)

Leading/guiding the technical decisions and road-maps for multiple teams and technolo-TECHNICAL **LEADERSHIP** gies: game-play; technology and engine; Creating Gantt charts; sprint and release plan-

ning; budgets; Managing multiple teams at the same time; etc;

Inherited CI/CD environment; documented it; defined its vision; implemented new fea-CI/CD OWNER

tures (slack/stash integration; git notes; etc); tackled major bottlenecks in build time;

Leading multiple developer teams in distinct projects, had lead up to 9 people simulta-LEADERSHIP

neously; Using several managerial and leadership tools, e.g One-on-One; Career-talks;

Performance Reviews; OKR's; Feedback; etc.;

Leading and participating in groups focused on giving training on: C/C++; visual effects COACHING

> (graphical pipeline); Defining the code style and standard for Miniclip; Physics collision profiles uses; Leading discussions with multiple art teams to identify improvement; etc.;

Multiple talks with the purpose of coaching, sharing knowledge or as documentation: TALKS

- C/C++ - from basic to more complex topics;

- Performance capture and evaluation- C++; UE4; Rendering;

- Physics engine in Unreal Engine and its immediate mode physics;

- On unreal engine replication and fast array serialization;

- On Miniclip history (in a game conf. in Portugal);

Volunteer work in: crash course on game development for underprivileged children; VOLUNTEERING

working underprivileged child caring institution; Volunteer as a new students guide;

TECHNICAL COMPETENCES

I'm writing my own engine as a mean to be constantly developing my C/C++ skill and PERSONAL **PROJECT**

overall programming skill and by pushing my own boundaries in new areas, with the

main focus being on modern rendering pipelines;

Intermediate/Advanced knowledge in: C/C++; Obj-C/C++; Python; C#; OpenGL; GLSL; PROGRAMMING

Bash; Git; Java; R; Latex;

In-depth knowledge on both Unreal Engine and Unity, mainly from personal time invest-COMMERCIAL

ment, with several prototypes done in both engines; **GAME ENGINES**

Probabilistic/Statistical analysis; Data mining/processing; Computer graphics; Computer **INTERESTS**

science; Computer vision; Artificial intelligence; Game development; Code optimization;

Repair/maintenance of hardware (e.g. computers, video consoles, mobile phones, etc.); HOBBIES

Game engine developer; Music; Skateboarding; Video games;

LINGUISTIC Able to easily understand, write and speak in English and Portuguese;

August 27, 2022, Portugal For references please contact.

DUNE: AWAKENING Senior engine developer - Responsible for the road-map; sprint and release-planning for one of the engine sub-team responsible for: the proprietary game-server technology in UE; performance: and engine/editor stability;

Leading the performance team, helping with code and network performance capturing, analysis and improvements, as well as with priorities and budget discussions;

Working on internal vehicle simulation and its network replication. Leading the internal physics framework development and road-map, targeted for multi-threading. Also heSlped evaluate PhysX/Chaos in UE4 and UE5.

Tech.: C/C++; Unreal Engine 4 (fork); Networking; PhysX; Perforce; Python;

SUPER MEAT BOY FOREVER

Senior developer - Helping with setting up the port infrastructure for mobile; Helping with porting and optimizing the renderer for mobile: C/C++;OpenGL/GLES;

Leading three distinct teams: Core Engine/Modules - Focus on our rendering module; CORE TECH LEAD Unity - supervising our internal shared modules; Goliath - the user tracking/metrics event

framework;

Helping in the development of a space simulation game in Unreal Engine (a friend's CENTAURI RISING

project): (physically-based movement; PID controllers; c++; blueprint);

TOP DOWN GOLF CARROM POOL HOCKEY STARS SOCCER STARS

Mobile client lead developer - Helping managing client developers; coaching on technical and leadership paths; Also helping with technical dependencies that would affect multiple projects: C/C++; Obj-C/C++; Cocos2D; Android; Bash; Python - Miniclip;

Developer: porting a game from Flash to Haxe, contributed to Kha: Haxe; Javascript; UNDISCLOSURED

Full-stack developer C/C++; Emscripten; Javascript; HTML; Bash; SPACEONE.IO

Invoice generation pipeline: C/C++/C#; Java; bash; MS/Oracle SQL; Sybase - Xpand-IT; VODAFONE E. AUDIT

Creator of an electronic POS/USB auditing device - Python; bash; linux drivers - IST;

PROFESSIONAL HISTORY (latest on top - removed everything before 2013)

Lead developer working for clients: Funcom; Team Meat; etc - [Jan. 2021, Now[; NUKKLEAR Mobile Client Lead Developer - [Out. 2016, Jan. 2021]; MINICLIP Mobile Client Software Developer - [Aug. 2015, Mar. 2017]; MINICLIP Full-time developer in the Microsoft Solutions Team - [Mar. 2014., Aug. 2015]; XPAND-IT Researcher in High-Definition Analytic project grant - [Jan. 2013, Feb. 2014]; IST

ACADEMIC/LEARNING HISTORY (latest on top)

LEADERSHIP Several workshops, both on-premise and remote, on different topics - 4 days - [2020]; Course in Certified Scrum Product Owner - 2 days - [Dez. 2018]; SCRUM - CSPO

SCRUM - CSD Practical course in Certified Scrum Developer - 3 days - [Jan. 2018];

Workshop on Time Management, Leadership and Management applied at Miniclip - 10 PRIORITIZATION days- [2017]; & LEADERSHIP

IST Researcher in High-Definition Analytic project grant - [Jan. 2013 - Feb. 2014];

M.Sc. Mathematics and Applications - Average: 15/20 - [2010, 2011]; **MASTER - IST**

B.Sc. Applied Mathematics and Computer Science - Average: 14/20 - [2006, 2010]; **BACHELOR**

IST
